

# Set Random

The **Set Random** block allows the user to generate a random number within a defined range.

## PARAMETERS IMPORTANT

- **Min and max:** establishes the range to generate a random number from.

- **Integer numbers:** if this is set to 1, results will be whole numbers (ex: 1, 5, 400). If this is blank to set to zero, the results will include values with decimals (ex: 1.2135, 4.6007, 0.0003)
